

SSC SERIES STAINLESS STEEL CLAMPS

APPLICATION:

- SSC67xx series clamps offers no nickel content and can't be used where non-magnetic material is required.
- SSC77xx series clamps combine the high nickel content stainless steel and plating of the carbon screw, allowing this clamp to be used in above ground outdoor and indoor applications where corrosion is somewhat of an issue. This clamp can be used for all standard clamp applications.
- SSC87xx series of marine grade clamps contains a high nickel content providing strong corrosion resistance for buried waterlines and well pump installation, and is suitable for outdoor use with no shielding.

SPECIFICATION:

- Dimensions and threads conform to SAE J1508 Type F
- Materials conform to AISI grades
- Stainless Steel Band & Housing
- Hex Screw with deep slots for quick installation
- Band in 300 series Stainless Steel with perforations for smoother worm-drive operation
- Four-piece design for strength and stability

PACKAGE:

- SSCxxxx clamps, such as SSC8720, are packaged in bags
- SSCxxxx clamps, such as SSCX8720, are packaged in boxes
- SSCBxxxx clamps, such as SSCB8720, are packaged in bulk

SSCxxxx clamps,
packaged in bags

SSCXxxxx clamps,
packaged in boxes

SSCBxxxx clamps,
packaged in bulk
